Ecopsychology

This course highlights key theories and core practices associated with the emerging field of ecopsychology. A basic tenet of ecopsychology is that personal and planetary well-being are inseparable. The theory and practice of ecopsychology are directed toward enhancing the health of the human/nature relationship. The work of ecopsychology is to understand, heal, and develop the psychological dimensions of the human/nature relationship through connecting with natural processes in the web of life. Prerequisite: COR130 or COR113.
