Senior Project

The Senior Project course is a capstone project-based course in which students demonstrate their cumulative knowledge, skills, and abilities in a specific environmentally-based research project. Students meet in a course format and work independently and collectively on a research project. Students are expected to follow guidelines for the research project and meet specific course criteria. Required for ENV majors. Cross-listed as PAX480.

Course Number: ENV480
Unit: 3.0
Program: Environmental Studies
