Nonprofit Management & Social Entrepreneurship

This online course provides students with perspectives and practical tools for working in organizations, focusing on nonprofit management and social entrepreneurship. Topics covered include practical tools such as strategic planning, fund-raising, and grant-writing, as well as the visioning and inspiration that underlie this work. Case studies, models, and applications to the MA applied leadership projects ground this class in real-world examples and experience. Required for MA Resilient Leadership students (both tracks).

Course Number: ENV701E
Unit: 3.0
Program: Environmental Studies
