

Queer Theory, Feminism, and Religion

Religion has greatly influenced our experiences as gendered beings, in the areas of sexuality, power, gender roles, personal identity, privilege, and wisdom. Feminism has identified the biases and abuses of patriarchy and sought to rectify them. It has also birthed the GLBT movement and queer theory. How have these efforts spoken to the spiritual subjectivities of women, sexual minorities, or men in these traditions? On what terms can gender be appreciated and valued? This course traces the historical evolution and cultural influences of patriarchy, feminism, and gay liberation on religious experience, as well as religion's impact on the formation of gender roles.

Course Number: REL212

Unit: 3.0

Program: GRAD/UNDG Religs Studies
