Jam Band

This traditional rock outfit explores charts and arrangements from well-known bands across the twentieth and twenty-first centuries. While engaging deeply in ensemble dynamics and collaboration, students learn the fundamentals of performing rock, soul, and funk. Though improvisation is inherent to this music, the focus will be on mastering existing literature and song forms, much like a cover band. Instruments and some instrumental skill are required.

Course Number: MUS270
Unit: 3.0
Program: Music
