Senior Seminar II: Transformational Psychology: The Threshold Experience

Senior Seminar II is the culminating phase in a multisensory, multifaceted process, which introduces and explores the topic of transition. Students utilize the lessons learned and relationships formed within the first semester as inspiration for developing their final integrative papers. Students research topics that provoke deep inquiry and challenge both their intellect and intuition. This course culminates in an event held during an extended class period on the last day of the course. Prerequisite: PSYB482. Materials fee.

Course Number: PSYB483  
Unit: 3.0  
Program: Psych - BA Contemplative
