

Contemplative Ceramics: Form and Human Contact

For millennia, humans have used ceramics both to sustain life and for personal expression. In this hands-on class, students develop their own individual approach to the medium, using methods that include pinching, coiling, slab construction, and wheel throwing. Students find ways to embody their contemplative practice by investigating how ceramics can create meaning with forms intended to connect with others. Students deepen their artistic practice by exploring the use of ceramics in the world.
