

Authentic Movement/Transpersonal

Authentic Movement, a self-directed movement process employing the wisdom of the body as a pathway to awareness, provides direct experience of the individual and collective body as a vessel for integration, healing, transformation, and creative process. This course explores the ground form of Authentic Movement: the mover, witness, and the relationship between them. Students explore their own process while experiencing this therapeutic movement form. Through learning how to increase the authenticity of presence, students explore the ground of the healing relationship. Authentic Movement provides a model for life lived in authentic relationship to self, others, and community.
