

Master of Divinity Field Education I

Field education is a supervised training experience in which students enhance their learning in ministry and/or social engagement through fieldwork supported with supervision and feedback. Through field education, students learn and serve as healthcare and prison chaplains, social justice advocates, educators, and organizers. Field education bridges and deepens the pastoral education of the Naropa MDiv program with the reflective practice of ministry in congregations and community settings. Field education is different from volunteer work or employment in that it is a supervised program that integrates academic study, spiritual discipline, and the practice of ministry.
