

## Gestalt: Presence

Gestalt, a way of being, is a powerful and provocative method to understand one's body, speech, and mind. By focusing on the details of moment-to-moment experience and on the interplay between the individual and the environment, Gestalt seeks to develop self-knowledge, satisfaction, self-support, and clear boundaries. The course includes readings, lectures, discussions, and experiential exercises on "the nature of being" and ego. Prerequisite: PSYB101.

Course Number: PSYB328

Unit: 3.0

Program: UNDG Contemplative Psych
