

## Abnormal Psychology

Students investigate the merits and liabilities of Western assessment and treatment approaches to psychological problems. We consider the sociocultural contexts in which assessment and treatment approaches are variably formulated and applied. We investigate both transcultural understandings of psychological problems and the wisdom of cultural relativity. Students acquire a solid foundation in traditional Western clinical approaches to mental health as articulated and codified in the DSM-V. Prerequisite: PSYB345, PSYB357, or PSYB371.
